Turn in a pdf of your analysis to canvas using the provided Rmd file as a template. Your Rmd file on the server will also be used in grading, so be sure they are identical.

Be sure to share your server project with the instructor and grader. You only need to do this once per semester.

1. Open your `homeworks` project on `liberator.stat.colostate.edu`
2. Click the drop down on the project (top right side) > Share Project...

3. Click the drop down and add “dsci445instructors” to your project.

This is how you **receive points** for reproducibility on your homework!
